---

Dear Mr. O'Neil,

Thank you for contacting Oregon's Office of Emergency Management (OEM) with your public records request. OEM works with various partners on coordination of response and recovery actions to actual incidents and develops plans, training and exercises to prepare for such events. Our planning efforts use an All Hazards approach, and do not generally focus on any one particular event scenario or privately owned asset / infrastructure. As such, we have no actual plans developed specifically to address an incident with the Kinder Morgan Pipeline. Rather, we have developed and maintain an Emergency Operations Plan and an incident annex on oil and hazardous material incidents, that would be applied to any type of emergency that falls into that category.

We have reviewed your request and would like to provide you with our specific responses to the following request for copies of correspondence or records.

1. OEM does not have this requested item.
2. Please see the State of Oregon Emergency Operations Plan (2014 revision), Plan Body available at [http://www.oregon.gov/OMD/OEM/Pages/plans\\_train/EOP.aspx](http://www.oregon.gov/OMD/OEM/Pages/plans_train/EOP.aspx)
3. OEM does not have this requested item.
4. OEM does not have this requested item.
