Mr. Wooley:

I am in receipt of your October 28 correspondence. If you have counsel still assisting you on this please have him give me a call.

If not my concern remains as to your response to No. 2. My understanding was that you folks would provide me the existing emergency procedures/plans that the District has that you would utilize if in fact there was a Pipeline Rupture explosion. The fact that there is not one specific to a pipeline rupture or disaster does not mean you do not have emergency procedures in place. If that does in fact exist, a PDF copy of the emergency procedures the Schools would utilize if something like this happen today is acceptable. If you have no emergency procedures then your response to number 2 is acceptable. Thank you for clarifying. The balance of your letter addresses my client's request.
